Value and return estimates are projections based on available data, quotes and market analysis. They are not a guarantee of results: every real-estate operation involves technical, commercial, tax and market risks.

05

Legal safety and risk control

The purchase is direct and goes entirely through the notary: title, mortgages and pl anning status are verified before the deed.

01

Due diligence before purchase

Title search, cadastral plan, planning compliance and absence of mortgages are checked by the notary and the platform's surveyor (geometra).

02

Notary's escrow account

Funds can pass through the notary's dedicated account (price deposit) and are released only once the transfer is registered.

03

orks paid against progress

The works budget is released in tranches, only after the platform's surveyor (geometra) has verified what was actually built.

06
