Why this location

The area was chosen for market liquidity, steady demand and entry prices that are still accessible.

THE MARKET GAP

There is a shortage of renovated, ready-to-live-in homes against a large stock in need of work.

HOW IT WILL LOOK AFTER THE WORKS

The renovation follows a calm, contemporary line: light walls, simple geometry, natural materials and new building services. Where regulations allow we open up the plan; kitchen and bathroom are rebuilt. The goal is an apartment ready to move into and easy to resell in its own neighbourhood.

Value and return estimates are projections based on available data, quotes and market analysis. They are not a guarantee of results: every real-estate operation involves technical, commercial, tax and market risks.

05

Legal safety and risk control

The purchase is direct and goes entirely through the notary: title, mortgages and planning status are verified before the deed.

01

Due diligence before purchase

Title search, cadastral plan, planning compliance and absence of mortgages are checked by the notary and the platform's surveyor (geometra).

02

Notary's escrow account

Funds can pass through the notary's dedicated account (price deposit) and are released only once the transfer is registered.

03

Works paid against progress

The works budget is released in tranches, only after the platform's surveyor (geometra) has verified what was actually built.
